

April 8, 2015

Dear Esteemed Physicians and Medical Staff,

My name is Krishnan Suthanthiran, President of Best Theratronics Ltd in Canada, Best Medical International in Virginia, USA, and other companies collectively known as TeamBest.

I lost my father to Cancer in 1968 and I have focused my entire career on cancer research and treatment. I started my career in 1972, under the late Dr. Ulrich K. Henschke, father of modern Brachytherapy, and since then I have worked with other distinguished Radiation Oncologists, such as Dr. Basil Hilaris, Dr. Dutta Nori, Dr. Nisar Syed, and Dr. Frank Ellis, just to name a few.

I began my company, Best Medical International, in 1977 and it has continued to expand rapidly from 2004 by acquiring other companies serving radiation oncology. I named the company BEST because I wanted to be the best in what we do. Today, we live up to this expectation and have an excellent reputation in our field. We have more than 400 employees globally and manufacture and distribute a range of products for Radiation Oncology, Nuclear Medicine, Cardiology, etc. Our family of companies is collectively known as TeamBest (not a corporate legal name). These include products in Brachytherapy, Teletherapy, (Theratron), Heavy Ion Radiation Therapy (Particle Therapy – Proton to Carbon, Helium, Oxygen, Lithium, and other heavy ions using a 400 MeV Rapid Cycling Medical Synchrotron), and Cyclotrons for radioisotopes production and research (15 MeV, 20 MeV upgradeable to 25 MeV, 28 MeV, 28 MeV upgradeable to 35 MeV, 35 MeV, and 70 MeV). These products range from simple, affordable solution to high tech solutions sought after by the world's most reputable medical centers and private centers.

As we expand and offer a **total solution** for your radiation oncology and nuclear medicine needs, we believe that we should be more present in your market, so that you can deal with us directly. We are moving away from our distributor model in India, formerly with Kirloskar Ltd (KTPL), and we now have terminated our distribution agreement with KTPL for all our products. We hope for your understanding during this time of transition from our distributor to our staff directly. We have recruited several staff members in India, and I have visited India nearly ten times during the last 12 months. We are establishing offices in a number of cities and registering our products to market them directly to you. These efforts will save costs for you and improve services. This will allow you to have direct access to a large range of our technical staff to assist your programs now and in the future.

413 March Road, Ottawa, ON K2K 0E4 Canada
